Introduction

The Valuation Office Survey of 1910 resulted in the creation of a snapshot of land across the county of Worcestershire, in common with other counties in England. The associated Valuation Summary books are to be found at the Hive in Worcester: these books are of a large format, measuring 43cm by 34cm, cloth-bound with leather corners and the name of the Income Tax Parish (ITP) written on the spine. An ITP may cover just a single civil parish in the county, whilst some ITPs covered two or more parishes: for example, the ITP of Church Lench only contains records for the civil parish of Church Lench, whilst that of Abbots Lench covers the civil parishes of Fladbury, Hill & Moor, Throckmorton and Wyre Piddle, as well as Abbots Lench itself. In some cases, two or more ITPs can be found in the same Valuation Summary book: for example, Conderton and Overbury. The basic unit of valuation was a piece of land in separate occupation, although the application of this principle was not always straightforward.¹ The number of valuation assessments in each civil parish ranges across the county from 1 (Crutch) to 7,171 (Kidderminster Borough).

This series of booklets provides a transcription of the Valuation Summary books for each civil parish in the county of Worcestershire, along with a brief analysis of the transcribed data.

1. The Valuation Office Survey of 1910

The valuation of land in 1910 was initiated by the Finance (1909-1910) Act (10 Edw. VII, c.8 section 26(1)) which provided for the levy and collection of a duty on the increment value of all land in the United Kingdom. The main object of the Act was to tax that part of the capital appreciation of real property which was attributable to the site itself, excluding any benefit arising from crops, buildings or improvements paid for by the owners. In this way, private owners were required to pay part of the increase in the site value of their land which had resulted from the expenditure of public money on communal developments such as roads or public services.

Increment value duty was based on the difference between the amount of two valuations. The first was the site value as at 30 April 1909, as determined by the Valuation Survey, which constituted the 'datum line' for these purposes: a second site valuation was to be taken on the occasion of any subsequent sale or grant of a lease, transfer of interest in a piece of land, or the subsequent death of a land owner, in order to determine any potential payment of increment value duty. This second assessment formed part of the on-going role of the Valuation Office, until this duty was repealed by the 1920 Finance Act (10 and 11 Geo. V, c.18). Although this legislation was only in place for around ten years, it has left behind a comprehensive record of land in every county enabling an understanding of the ownership, occupation, extent and value of land. The data collected during the survey for the county of Worcestershire, which has been retained, is contained in four different sets:

- The Valuation Summary books (sometimes referred to as the Lloyd George Domesday books): these are held at the Hive in Worcester (WAAS: BA8585/1 series);
- Forms 37 – Land: these contain the provisional valuations, and are also held at the Hive in Worcester (WAAS: 8585/2-64 series);

¹ See Brian Short, *Land and Society in Edwardian Britain* (Cambridge: Cambridge University Press, 1997), pp 131-132.

- Two series of annotated Ordnance Survey maps: the Field Maps (used in the field during survey), some of which are now held at the Hive in Worcester; the Record Maps (originally kept in the Valuation Record office) now held at the National Archives at Kew (TNA: IR129 series);
- The Field Books which contain a complete record of each valuation: again, these are held at the National Archives at Kew (TNA: IR58 series).

With regard to the Valuation Summary books, the first nine columns were compiled from the Rate Book for the parish and all of the books contain this information. Subsequent columns (10–40) were supposed to be completed by the staff of the District Valuation Offices after the initial valuation was complete: however, this was not carried out in a consistent fashion, and indeed, anyone interested in the mechanics and outcome of an individual valuation would be better served by the details contained in the Field Books.

This series of booklets provides a transcription of the first nine columns in that these record the ownership, occupation, extent, and basic valuation of each assessment. After a brief introduction to the parish, an analysis of the data will be presented examining the names of the major landowners and the extent of their property in the parish, along with an analysis of the main farms in the parish. Indexes of owners, occupiers and places appear in subsequent appendices and a final appendix will direct the reader to the appropriate references for the associated Forms 37, Record Maps and Field Books for the parish covered by the booklet.

This booklet presents the data for the civil parish of Childswickham: it has been taken from the summary book for the Income Tax Parish of Aston Somerville which covers the civil parishes of Aston Somerville, Buckland, Childswickham, Snowhill, and Stanton.²

In 1910, Childswickham was part of Gloucestershire, and was transferred to Worcestershire in 1931, under the Gloucestershire and Warwickshire to Worcestershire Order of the same year.³

2. The parish of Childswickham in 1910

The parish is located 5 miles south-east of Evesham on a geology described as ‘Blue Lias and Charmouth Mudstone Formation’, extending to 1,898 acres. The resulting soils are primarily lime-rich loamy and clayey soils with impeded drainage, with a band of freely draining lime-rich loamy soils, running roughly northwest-southeast through the parish.⁴

When the census was carried out in 1911, the population of Childswickham was 492 (253 males and 239 females): of the 119 properties recorded in the census, 112 were inhabited, two were uninhabited, and five were classed as a ‘building not used as dwelling’.⁵ From an agricultural viewpoint, the main arable crops were wheat, beans, asparagus, and general market garden produce.⁶

3. Land and property in 1910 in the parish of Childswickham

In preparing the data for analysis, a series of standardisations have been made: see Appendix 6 for full details.

Of the 265 assessments with owners recorded in the Valuation Summary, 165 were owned by Gardner S. Bazley Esq. of Hatherop Castle, Fairford in Gloucestershire. He was Lord of the Manor and principal landowner as shown in Table 2, owning 86% of the land in the parish.

Table 1: Number of assessments by landowner

Name	No. of assessments
G. S. Bazley Esq.	165
Rev. L. Lloyd	45
Fisher, Exors of	13
21 others with 5 or less assessments	42
TOTAL	265

Table 2 shows the acreage of land in the parish by major landowner, determined by summing the entries in the Valuation Summary.

Table 2: Acreage of land by major landowner

Name	Acreage		
	a	r	p
G. S. Bazley	1597	0	0
Fred Wm. Morton	92	0	0
Rev. L. Lloyd	71	0	0
Wm. Everall	28	0	0
Albert Days	20	3	0
Wm. Holden	14	2	0
14 others with 10 acres or less each	23	1	0
TOTAL	1846	2	0

Those assessments with more than 25 acres of land are listed in Table 3.

Table 3: Assessments in excess of 25 acres

Situation	Acreage		
	a	r	p
Manor Farm	340	0	0
Mount Pleasant	237	3	0
Murcott Farm	207	1	0
Old Well Farm	188	1	0
Millbrook Farm	135	1	0
Lower Murcott Farm	113	1	0
Perrins Farm	100	1	0
Childswickham	92	0	0
The Brickyard	72	2	0
Colin Farm	40	3	0
Big Ground	31	0	0
Whitechapel	28	0	0

Appendix 1. Transcribed data from the Valuation Summary for the parish of Childswickham.

NOTE:

1. This data has been transcribed as presented in the Valuation Summary without any standardisation of punctuation, abbreviation &c. However, all data presented as superscripts has been included as normal text in this transcription.
2. Assessments numbers 273A to 282A inclusive were inserted between 282 and 283, and were re-numbered to 584 to 593 inclusive. These are presented below in their original position in the Valuation Summary book (that is, between 282 and 283). Likewise, Assessment Number 289A (between 289 and 290) was renumbered to 594 but is presented below between 289 and 290.

Appendix 6. Data standardisations made for the parish of Childswickham.

In preparing the data for analysis, the following standardisations have been made:

- Where entries appear in either owner names or occupier names, which use abbreviations or the full name, the listings in Appendices 2 and 3 show the full name for all variations: for example, for cases with the same surname only, where *Thos.* and *Thomas* appear, these are all recorded under *Thomas*; however, those entries with only the initial *T.* are not assumed to be *Thomas*.
- Using the above logic, then:
 - *Chas* and *Charles* are recorded as *Charles*;
 - *Geo* and *George* are recorded as *George*;
 - *Hbt.*, *Herbt* and *Herbert* are recorded as *Herbert*;
 - *Hy* and *Henry* are recorded as *Henry*;
 - *Mat* and *Matt.* Are recorded as *Matt.*;
 - *Phil* and *Philip* are recorded as *Philip*;
 - *Saml* and *Samuel* are recorded as *Samuel*;
 - *Zeph* and *Zephaniah* are recorded as *Zephaniah*.
- Two variations of situation, *Mount Pleasant* and *Mt Plesant* are shown in Appendix 1. The listing in Appendix 4 shows *Mount Pleasant* for both variations;
- Two variations of situation, *Murcott* and *Murcot* are shown in Appendix 1. The listing in Appendix 4 shows *Murcott* for both variations.
