## Introduction

The Valuation Office Survey of 1910 resulted in the creation of a snapshot of land across the county of Worcestershire, in common with other counties in England. The associated Valuation Summary books are to be found at the Hive in Worcester: these books are of a large format, measuring 43cm by 34cm, cloth-bound with leather corners and the name of the Income Tax Parish (ITP) written on the spine. An ITP may cover just a single civil parish in the county, whilst some ITPs covered two or more parishes: for example, the ITP of Church Lench only contains records for the civil parish of Church Lench, whilst that of Abbots Lench covers the civil parishes of Fladbury, Hill & Moor, Throckmorton and Wyre Piddle, as well as Abbots Lench itself. In some cases, two or more ITPs can be found in the same Valuation Summary book: for example, Conderton and Overbury. The basic unit of valuation was a piece of land in separate occupation, although the application of this principle was not always straightforward.<sup>1</sup> The number of valuation assessments in each civil parish ranges across the county from 1 (Crutch) to 7,171 (Kidderminster Borough).

This series of booklets provides a transcription of the Valuation Summary books for each civil parish in the county of Worcestershire, along with a brief analysis of the transcribed data.

### 1. The Valuation Office Survey of 1910

The valuation of land in 1910 was initiated by the Finance (1909-1910) Act (10 Edw. VII, c.8 section 26(1)) which provided for the levy and collection of a duty on the increment value of all land in the United Kingdom. The main object of the Act was to tax that part of the capital appreciation of real property which was attributable to the site itself, excluding any benefit arising from crops, buildings or improvements paid for by the owners. In this way, private owners were required to pay part of the increase in the site value of their land which had resulted from the expenditure of public money on communal developments such as roads or public services.

Increment value duty was based on the difference between the amount of two valuations. The first was the site value as at 30 April 1909, as determined by the Valuation Survey, which constituted the 'datum line' for these purposes: a second site valuation was to be taken on the occasion of any subsequent sale or grant of a lease, transfer of interest in a piece of land, or the subsequent death of a land owner, in order to determine any potential payment of increment value duty. This second assessment formed part of the on-going role of the Valuation Office, until this duty was repealed by the 1920 Finance Act (10 and 11 Geo. V, c.18). Although this legislation was only in place for around ten years, it has left behind a comprehensive record of land in every county enabling an understanding of the ownership, occupation, extent and value of land. The data collected during the survey for the county of Worcestershire, which has been retained, is contained in four different sets:

- The Valuation Summary books (sometimes referred to as the Lloyd George Domesday books): these are held at the Hive in Worcester (WAAS: BA8585/1 series);
- Forms 37 – Land: these contain the provisional valuations, and are also held at the Hive in Worcester (WAAS: 8585/2-64 series);
- Two series of annotated Ordnance Survey maps: the Field Maps (used in the field during survey), some of which are now held at the Hive in Worcester; the Record Maps (originally

<sup>1</sup> See Brian Short, *Land and Society in Edwardian Britain* (Cambridge: Cambridge University Press, 1997), pp 131-132.

kept in the Valuation Record office) now held at the National Archives at Kew (TNA: IR129 series);

- The Field Books which contain a complete record of each valuation: again, these are held at the National Archives at Kew (TNA: IR58 series).

With regard to the Valuation Summary books, the first nine columns were compiled from the Rate Book for the parish and all of the books contain this information. Subsequent columns (10-40) were supposed to be completed by the staff of the District Valuation Offices after the initial valuation was complete: however, this was not carried out in a consistent fashion, and indeed, anyone interested in the mechanics and outcome of an individual valuation would be better served by the details contained in the Field Books.

This series of booklets provides a transcription of the first nine columns in that these record the ownership, occupation, extent, and basic valuation of each assessment. After a brief introduction to the parish, an analysis of the data will be presented examining the names of the major landowners and the extent of their property in the parish, along with an analysis of the main farms in the parish. Indexes of owners, occupiers and places appear in subsequent appendices and a final appendix will direct the reader to the appropriate references for the associated Forms 37, Record Maps and Field Books for the parish covered by the booklet.

The Valuation Summary for the Income Tax Parish of Hanley Castle is contained in two summary books covering the civil parishes of Hanley Castle, Malvern Wells, Little Malvern, and Welland. This booklet covers the civil parish of Hanley Castle only.<sup>2</sup>

## 2. The parish of Hanley Castle in 1910

The parish is located 9 miles south-west from Worcester, on a geology described as ‘Sidmouth Mudstone Formation’, extending to 4,372 acres. The resulting soils are primarily freely-draining, slightly-acid loamy soils, and slowly-permeable, seasonally-wet, slightly-acid but base-rich loamy and clayey soils.<sup>3</sup> When the census was carried out in 1911, the population of Hanley Castle was 1,187 (576 males and 611 females): of the 387 properties recorded in the census, 357 were inhabited, 13 were uninhabited, and 17 were classed as a ‘building not used as dwelling’.<sup>4</sup>

From an agricultural viewpoint in the same year, the total cultivated area of the parish was 3,950½ acres, of which 900¼ were arable, and 3,050¼ acres (77% of the total) were grassland: there was also 184¾ acres of orchards, 157 acres of which were counted under permanent grassland. Of the 66 agricultural holdings in the parish, 59 were tenanted properties covering 3,841½ acres (97% of the total). The main arable crops were wheat, beans, oats, mangolds, peas and barley, whilst the orchards were growing mainly apples and pears. With more pasture land than arable, 889 cattle and 2,201 sheep were kept.<sup>5</sup>

### 3. Land and property in 1910 in the parish of Hanley Castle

In preparing the data for analysis, a series of standardisations have been made: see Appendix 6 for full details.

Of the 335 assessments with owners recorded in the Valuation Summary, 122 were owned by Sir E. Lechmere Bt. whilst Duke Gandolfi owned 58 assessments: thus, these two individuals were the major landowners in the parish in terms of both numbers of assessments and acreage (see Table 2).

Table 1: Number of assessments by landowner

| Name                                 | No. of assessments |
|--------------------------------------|--------------------|
| Sir E. Lechmere Bt.                  | 122                |
| Duke Gandolfi                        | 58                 |
| 85 others with 9 or less assessments | 155                |
| Not stated                           | 6                  |
| TOTAL                                | 341                |

Table 2 shows the acreage of land in the parish by major landowner, determined by summing the entries in the Valuation Summary.

Table 2: Acreage of land by major landowner

**Appendix 1.** Transcribed data from the Valuation Summary for the parish of Hanley Castle.

NOTE:

1. This data has been transcribed as presented in the Valuation Summary without any standardisation of punctuation, abbreviation &c. However, all data presented as superscripts has been included as normal text in this transcription.
2. Where the compiler of the return has entered two or more lines, and then joined them together with a curly bracket, then the assessment number, occupier and/or owner have been copied down from the first line: this applies to assessment numbers 25, 30, 36 and 49. Where there is no such curly bracket, the occupier and/or owner are left blank as presented: this applies to assessment number 24.

## **Appendix 6. Data standardisations made for the parish of Hanley Castle.**

In preparing the data for analysis, the following standardisations have been made:

- Where entries appear in either owner names or occupier names, which use abbreviations or the full name, the listings in Appendices 2 and 3 show the full name for all variations: for example, for cases with the same surname only, where *Geo* and *George* appear, these are all recorded under *George*; however, those entries with only the initial *G*. are not assumed to be *George*;
- Using the above logic, then:
  - *Chas* and *Charles* are recorded as *Charles*;
  - *Hy* and *Henry* are recorded as *Henry*;
  - *Jas* and *James* are recorded as *James*;
  - *Wm* and *William* are recorded as *William*.
- Six variations of owner and occupier names, *Sir E. Lechmere Bt.*, *Sir E. Lechmere Bart*, *Sir E Lechmere*, *Sir E. Lechmere*, *Sir E. A. Lechmere*, and *Lechmere Sir E.* are shown in Appendix 1: the listings in Appendices 2 and 3 show *Lechmere*, *Sir E. Bt.* for all variations;
- Three variations of owner and occupier names, *The Duke Gandolfi*, *Duke Gandolfi*, and *Duke Gandolphi* are shown in Appendix 1: the listings in Appendices 2 and 3 show *Gandolfi*, *Duke* for all variations;
- Two variations of owner names, *Govs. Hanley Gm Sch* and *Govs. Hanley Gm School* are shown in Appendix 1: the listing in Appendix 2 shows *Hanley Grammar School, Governors* for both variations;
- Two variations of occupier names, *Coghlan Hay* and *Hay Coghlan* are shown in Appendix 1: the listing in Appendix 3 shows *Hay-Coghlan* for both variations;<sup>18</sup>
- The occupier name *Stuart Savile Miss* has been standardised to *Stewart-Savile, Miss* in Appendix 3;<sup>19</sup>
- The occupier name *Rural D. C.* shown in Appendix 1 has been standardised to *Rural District Council*;
- The occupier name *Clayton. Every. A.* has been standardised to *Every-Clayton, A.* in Appendix 3;
- Two variations of situation, *Blackmore Pk.* and *Blackmore Park* are shown in Appendix 1: the listing in Appendix 4 shows *Blackmore Park* for both of these variations;
- The situation *Churchend* shown in Appendix 1 has been standardised to *Church End* in Appendix 4;
- The situation *Blackmorend* shown in Appendix 1 has been standardised to *Blackmore End* in Appendix 4;
- The situations *Gilbertsend* and *Gilberts-end* shown in Appendix 1 have been standardised to *Gilberts End* in Appendix 4;
- The situations *Pickenend* and *Picken end* shown in Appendix 1 have been standardised to *Picken End* in Appendix 4;
- The situation *Robertsend* shown in Appendix 1 has been standardised to *Roberts End* in Appendix 4;
- The situations *Cross hands* and *Cross Hands* shown in Appendix 1 have been standardised to *Cross Hands* in Appendix 4;
