Introduction

The Valuation Office Survey of 1910 resulted in the creation of a snapshot of land across the county of Worcestershire, in common with other counties in England. The associated Valuation Summary books are to be found at the Hive in Worcester: these books are of a large format, measuring 43cm by 34cm, cloth-bound with leather corners and the name of the Income Tax Parish (ITP) written on the spine. An ITP may cover just a single civil parish in the county, whilst some ITPs covered two or more parishes: for example, the ITP of Church Lench only contains records for the civil parish of Church Lench, whilst that of Abbots Lench covers the civil parishes of Fladbury, Hill & Moor, Throckmorton and Wyre Piddle, as well as Abbots Lench itself. In some cases, two or more ITPs can be found in the same Valuation Summary book: for example, Conderton and Overbury. The basic unit of valuation was a piece of land in separate occupation, although the application of this principle was not always straightforward.¹ The number of valuation assessments in each ITP ranges across the county from 7 (Kenswick) to 7,171 (Kidderminster Borough).

This series of booklets provides a transcription of the Valuation Summary books for each civil parish in the county of Worcestershire, along with a brief analysis of the transcribed data.

1. The Valuation Office Survey of 1910

The valuation of land in 1910 was initiated by the Finance (1909-1910) Act (10 Edw. VII, c.8 section 26(1)) which provided for the levy and collection of a duty on the increment value of all land in the United Kingdom. The main object of the Act was to tax that part of the capital appreciation of real property which was attributable to the site itself, excluding any benefit arising from crops, buildings or improvements paid for by the owners. In this way, private owners were required to pay part of the increase in the site value of their land which had resulted from the expenditure of public money on communal developments such as roads or public services.

Increment value duty was based on the difference between the amount of two valuations. The first was the site value as at 30 April 1909, as determined by the Valuation Survey, which constituted the 'datum line' for these purposes: a second site valuation was to be taken on the occasion of any subsequent sale or grant of a lease, transfer of interest in a piece of land, or the subsequent death of a land owner, in order to determine any potential payment of increment value duty. This second assessment formed part of the on-going role of the Valuation Office, until this duty was repealed by the 1920 Finance Act (10 and 11 Geo. V, c.18). Although this legislation was only in place for around ten years, it has left behind a comprehensive record of land in every county enabling an understanding of the ownership, occupation, extent and value of land. The data collected during the survey for the county of Worcestershire, which has been retained, is contained in four different sets:

- The Valuation Summary books (sometimes referred to as the Lloyd George Domesday books): these are held at the Hive in Worcester (WAAS: BA8585/1 series);
- Forms 37 – Land: these contain the provisional valuations, and are also held at the Hive in Worcester (WAAS: 8585/2-64 series);
- Two series of annotated Ordnance Survey maps: the Field Maps (used in the field during survey), some of which are now held at the Hive in Worcester; the Record Maps (originally

¹ See Brian Short, *Land and Society in Edwardian Britain* (Cambridge: Cambridge University Press, 1997), pp 131-132.

kept in the Valuation Record office) now held at the National Archives at Kew (TNA: IR129 series);

- The Field Books which contain a complete record of each valuation: again, these are held at the National Archives at Kew (TNA: IR58 series).

With regard to the Valuation Summary books, the first nine columns were compiled from the Rate Book for the parish and all of the books contain this information. Subsequent columns (10-40) were supposed to be completed by the staff of the District Valuation Offices after the initial valuation was complete: however, this was not carried out in a consistent fashion, and indeed, anyone interested in the mechanics and outcome of an individual valuation would be better served by the details contained in the Field Books.

This series of booklets provides a transcription of the first nine columns in that these record the ownership, occupation, extent, and basic valuation of each assessment. After a brief introduction to the parish, an analysis of the data will be presented examining the names of the major landowners and the extent of their property in the parish, along with an analysis of the main farms in the parish. Indexes of owners, occupiers and places appear in subsequent appendices and a final appendix will direct the reader to the appropriate references for the associated Forms 37, Record Maps and Field Books for the parish covered by the booklet.

This booklet presents the data for the civil parish of Salwarpe: it has been taken from the summary book for the Income Tax Parish of Doverdale which covers the civil parishes of Doverdale, Hampton Lovett, Salwarpe and Westwood.²

2. The parish of Salwarpe in 1910

The parish is located 5½ miles from Worcester and 2 miles from Droitwich on a geology described as ‘Sidmouth Mudstone Formation’, extending to 1,743 acres. The resulting soils are a mixture of slightly-acid loamy and clayey soils with impeded drainage, and freely-draining slightly-acid loamy soils, with loamy and clayey floodplain soils with natural high groundwater alongside the River Salwarpe.³

When the census was carried out in 1911, the population of Salwarpe (including the hamlet of Chawson) was 358 (185 males and 173 females): of the 98 properties recorded in the census, 88 were inhabited, six were uninhabited, one was classed as a ‘building’ and three were classed as a ‘building not used as dwelling’.⁴ From an agricultural viewpoint in the same year, the total cultivated area of the parish was 1,869¾ acres, of which 495¼ were arable, and 1374½ acres (74% of the total) were grassland: there was also 94½ acres of orchards, counted under permanent grassland. Of the 25 agricultural holdings in the parish, 24 were tenanted properties covering 1,752¾ acres (94% of the total). The main arable crops were wheat, beans, and oats, whilst the orchards were growing a range of top fruit. With more pasture land than arable, 401 cattle and 650 sheep were kept.⁵

⁴ TNA: RG78/1086. *1911 Census Enumerator’s Summary Books. Worcestershire. Droitwich. Registration Sub-District: Ombersley, including Civil Parish, Township or Place: Salwarpe, Unnamed Civil Parish – Hamlet of Chawson.*

⁵ TNA: MAF68/2489, *Ministry of Agriculture, Fisheries and Food and predecessors: Statistics Divisions: Parish Summaries of Agricultural Returns. Worcestershire, 1911.* Main acreages of arable as follows: Wheat, 166; Beans, 70¾; Oats 70. Orchard acreages: Apples, 68; Pears, 5; Plums, 4¾; Other kinds, 16¾.

3. Land and property in 1910 in the parish of Salwarpe

In preparing the data for analysis, the following standardisations have been made:

- Two variations of owner and occupier names, *Great Western Ry.* and *G. W. R.* are shown in Appendix 1: the listings in Appendices 2 and 3 show *Great Western Railway* for both variations;
- Two variations of owner and occupier names, *G. P. Master* and *Genl. Postmaster* are shown in Appendix 1: the listings in Appendices 2 and 3 show *Postmaster General* for both variations;
- Two variations of occupier names, *Archd. Douglas* and *Archibald Douglas* are shown in Appendix 1: the listing in Appendix 3 shows *Archibald Douglas* for both variations;
- Two variations of situation, *Church Fields* and *Churchfields* are shown in Appendix 1: the listing in Appendix 4 shows *Churchfields* for both of these variations;
- The situation *C. Yard* shown in Appendix 1 has been standardised to *Churchyard* in Appendix 4;
- The abbreviation *Ho.* has been standardised to *House*.

Of the 125 assessments with owners recorded in the Valuation Summary, 32 were owned by A. Douglas and 22 were owned by Archibald Douglas: assuming that this is one and the same person, then he was the major landowner in terms of numbers of assessments. Combining the acreages for A. Douglas and Archibald Douglas in Table 2 shows him to have been the second largest landowner in acreage terms, after T. C. Quarrell who was the second largest in terms of numbers of assessments (27).

Table 1: Number of assessments by landowner

Name	No. of assessments
A. Douglas	32
T. C. Quarrell	27
Archibald Douglas	22
24 others with 7 or less assessments	44
TOTAL	125

Table 2 shows the acreage of land in the parish by major landowner, determined by summing the entries in the Valuation Summary.

Table 2: Acreage of land by major landowner

Name	Acreage		
	a	r	p
T. C. Quarrell	943	0	0
A. Douglas	740	2	0
H. Seddon	98	0	0
Archibald Douglas	76	1	0
5 others with between 10 and 75 acres each	201	0	0
11 others with less than 10 acres each	33	1	0
TOTAL	2092	0	0

Those assessments with more than 50 acres of land are listed in Table 3.

Table 3: Assessments in excess of 50 acres

Occupier	Situation	Acreage		
		a	r	p
Mathias Golledge	Salwarpe & High Park	358	0	0
Exors. of Stinton	Copcut & Pulley Farms	330	3	0
W. Wilkes	Newland Farm	237	3	0
M. Golledge	High Park	157	3	0
B. J. Stinton	Oakley Farm	130	0	0
John R. Hill	Chawson	98	0	0
Edwin Thirlwall	Newland	96	0	0
J. A. Jackson	Ladywood	62	3	0
William Thomas	Salwarpe & Higley	58	1	0

Appendix 1. Transcribed data from the Valuation Summary for the parish of Salwarpe.

NOTE:

1. This data has been transcribed as presented in the Valuation Summary without any standardisation of punctuation, abbreviation &c. However, all data presented as superscripts has been included as normal text in this transcription.

2. Many of the assessment numbers were not given as complete numbers in the Valuation Summary: for example, between 170 and 180, the numbers are written as 170, 1, 2, ..., 9, 180. In order to provide an accurate cross-reference between the data in this appendix, and that in Appendices 2, 3 and 4, the assessment numbers have been completed in full in the table below.

No. of assessment	No. of Poor Rate	Occupier	Owner and residence	Description	No	Situation	Estimated extent			Gross annual value			Rateable value
