Introduction

The Valuation Office Survey of 1910 resulted in the creation of a snapshot of land across the county of Worcestershire, in common with other counties in England. The associated Valuation Summary books are to be found at the Hive in Worcester: these books are of a large format, measuring 43cm by 34cm, cloth-bound with leather corners and the name of the Income Tax Parish (ITP) written on the spine. An ITP may cover just a single civil parish in the county, whilst some ITPs covered two or more parishes: for example, the ITP of Church Lench only contains records for the civil parish of Church Lench, whilst that of Abbots Lench covers the civil parishes of Fladbury, Hill & Moor, Throckmorton and Wyre Piddle, as well as Abbots Lench itself. In some cases, two or more ITPs can be found in the same Valuation Summary book: for example, Conderton and Overbury. The basic unit of valuation was a piece of land in separate occupation, although the application of this principle was not always straightforward.¹ The number of valuation assessments in each ITP ranges across the county from 7 (Kenswick) to 7,171 (Kidderminster Borough).

This series of booklets provides a transcription of the Valuation Summary books for each civil parish in the county of Worcestershire, along with a brief analysis of the transcribed data.

1. The Valuation Office Survey of 1910

The valuation of land in 1910 was initiated by the Finance (1909-1910) Act (10 Edw. VII, c.8 section 26(1)) which provided for the levy and collection of a duty on the increment value of all land in the United Kingdom. The main object of the Act was to tax that part of the capital appreciation of real property which was attributable to the site itself, excluding any benefit arising from crops, buildings or improvements paid for by the owners. In this way, private owners were required to pay part of the increase in the site value of their land which had resulted from the expenditure of public money on communal developments such as roads or public services.

Increment value duty was based on the difference between the amount of two valuations. The first was the site value as at 30 April 1909, as determined by the Valuation Survey, which constituted the 'datum line' for these purposes: a second site valuation was to be taken on the occasion of any subsequent sale or grant of a lease, transfer of interest in a piece of land, or the subsequent death of a land owner, in order to determine any potential payment of increment value duty. This second assessment formed part of the on-going role of the Valuation Office, until this duty was repealed by the 1920 Finance Act (10 and 11 Geo. V, c.18). Although this legislation was only in place for around ten years, it has left behind a comprehensive record of land in every county enabling an understanding of the ownership, occupation, extent and value of land. The data collected during the survey for the county of Worcestershire, which has been retained, is contained in four different sets:

- The Valuation Summary books (sometimes referred to as the Lloyd George Domesday books): these are held at the Hive in Worcester (WAAS: BA8585/1 series);
- Forms 37 – Land: these contain the provisional valuations, and are also held at the Hive in Worcester (WAAS: 8585/2-64 series);
- Two series of annotated Ordnance Survey maps: the Field Maps (used in the field during survey), some of which are now held at the Hive in Worcester; the Record Maps (originally

¹ See Brian Short, *Land and Society in Edwardian Britain* (Cambridge: Cambridge University Press, 1997), pp 131-132.

kept in the Valuation Record office) now held at the National Archives at Kew (TNA: IR129 series);

- The Field Books which contain a complete record of each valuation: again, these are held at the National Archives at Kew (TNA: IR58 series).

With regard to the Valuation Summary books, the first nine columns were compiled from the Rate Book for the parish and all of the books contain this information. Subsequent columns (10-40) were supposed to be completed by the staff of the District Valuation Offices after the initial valuation was complete: however, this was not carried out in a consistent fashion, and indeed, anyone interested in the mechanics and outcome of an individual valuation would be better served by the details contained in the Field Books.

This series of booklets provides a transcription of the first nine columns in that these record the ownership, occupation, extent, and basic valuation of each assessment. After a brief introduction to the parish, an analysis of the data will be presented examining the names of the major landowners and the extent of their property in the parish, along with an analysis of the main farms in the parish. Indexes of owners, occupiers and places appear in subsequent appendices and a final appendix will direct the reader to the appropriate references for the associated Forms 37, Record Maps and Field Books for the parish covered by the booklet.

This booklet presents the data for the civil parish of North & Middle Littleton: it has been taken from the summary book for the Income Tax Parish of Cleeve Prior which covers the civil parishes of Cleeve Prior, North & Middle Littleton, South Littleton and Offenham.²

2. The parish of North & Middle Littleton in 1910

The parish is located 3 miles north east from Evesham on a geology described as a mixture of 'Blue Lias Formation and Charmouth Mudstone Formation - Mudstone' and 'Wilmeccote Limestone Member - Mudstone and limestone', extending to 1,697 acres. The resulting soils are lime-rich loamy and clayey soils with impeded drainage.³

When the census was carried out in 1911, the population of North and Middle Littleton was 352 (177 males and 175 females): of the 89 properties recorded in the census, 82 were inhabited, one was uninhabited, and six were classed as a 'building not used as dwelling'.⁴ From an agricultural viewpoint in the same year, the total cultivated area of the parish was 1,169¾ acres, of which 653 were arable, and 516¾ acres (44% of the total) were grassland: this included 114¾ acres of orchards. Of the 69 agricultural holdings in the parish, 67 were tenanted properties covering 1,152¾ acres (99% of the total). The main arable crops were wheat, beans, peas, oats, and barley, whilst the orchards were growing mainly plums and apples. With less pasture land than arable, only 139 cattle and 474 sheep were kept.⁵

3. Land and property in 1910 in the parish of North & Middle Littleton

In preparing the data for analysis, a series of standardisations have been made: see Appendix 6 for full details.

Of the 346 assessments with owners recorded in the Valuation Summary, 125 were owned by the Rev. F. G. E. Ashworth: the living of South Littleton, with Middle Littleton annexed, was a vicarage in the gift of the Dean and Chapter of Christ Church, Oxford, and had been held by the Rev. Francis Gerald Edwardes Ashworth since 1902.⁶ Lady Northwick held 68 assessments and she was lady of the manor of North and Middle Littleton: as shown in Table 2, she held the majority of the land in the parish in terms of acreage.

Appendix 1. Transcribed data from the Valuation Summary for the parish of North & Middle Littleton.

NOTE:

1. This data has been transcribed as presented in the Valuation Summary without any standardisation of punctuation, abbreviation &c. However, all data presented as superscripts has been included as normal text in this transcription.

2. Many of the assessment numbers were not given as complete numbers in the Valuation Summary: for example, between 320 and 330, the numbers are written as 320, 1, 2, 3, ... 9, 330. In order to provide an accurate cross-reference between the data in this appendix, and that in Appendices 2, 3 and 4, the assessment numbers have been completed in full in the table below.

Appendix 6. Data standardisations made for the parish of North & Middle Littleton.

In preparing the data for analysis, the following standardisations have been made:

- Where entries appear in either owner names or occupier names, which use abbreviations or the full name, the listings in Appendices 2 and 3 show the full name for all variations: for example, for cases with the same surname only, where *Thos* and *Thomas* appear, these are all recorded under *Thomas*; however, those entries with only the initial *T.* are not assumed to be *Thomas*;
- Using the above logic, then:
 - *Benj*, *Benjm* and *Benjamin* are recorded as *Benjamin*;
 - *Jon* and *Jonathan* are recorded as *Jonathan*;
 - *Saml* and *Samuel* are recorded as *Samuel*;
 - *Wm* and *William* are recorded as *William*.
- The owner name *Christ Ch. College* has been standardised to *Christ Church College*;
- The owner name *Worcester C. Council* has been standardised to *Worcester County Council*;
- The occupier *N & M. Littleton* has been standardised to *North & Middle Littleton*;
- The occupier *Sth Littleton* has been standardised to *South Littleton*;
- Two variations of situation *Sand Pit G[roun]d* and *Sandpit G[roun]d* are shown in Appendix 1: the listing in Appendix 4 shows *Sand Pit G[roun]d* for both of these variations;
- The situation *Maltho:* has been standardised to *Malthouse*;
- The situation *Mid. Littleton* has been standardised to *Middle Littleton*;
- The situation *R. Room* has been standardised to *Reading Room*;
- The situation *Rec. Ground* has been standardised to *Recreation Ground*;
- The abbreviation *Cottg* has been standardised to *Cottage*;
- The abbreviation *Gd* has been standardised to *Ground*;
- The abbreviation *Par.* has been standardised to *Parish*;
- The abbreviation *Rd* has been standardised to *Road*.
