## Introduction

The Valuation Office Survey of 1910 resulted in the creation of a snapshot of land across the county of Worcestershire, in common with other counties in England. The associated Valuation Summary books are to be found at the Hive in Worcester: these books are of a large format, measuring 43cm by 34cm, cloth-bound with leather corners and the name of the Income Tax Parish (ITP) written on the spine. An ITP may cover just a single civil parish in the county, whilst some ITPs covered two or more parishes: for example, the ITP of Church Lench only contains records for the civil parish of Church Lench, whilst that of Abbots Lench covers the civil parishes of Fladbury, Hill & Moor, Throckmorton and Wyre Piddle, as well as Abbots Lench itself. In some cases, two or more ITPs can be found in the same Valuation Summary book: for example, Conderton and Overbury. The basic unit of valuation was a piece of land in separate occupation, although the application of this principle was not always straightforward.<sup>1</sup> The number of valuation assessments in each ITP ranges across the county from 1 (Crutch) to 7,171 (Kidderminster Borough).

This series of booklets provides a transcription of the Valuation Summary books for each civil parish in the county of Worcestershire, along with a brief analysis of the transcribed data.

## 1. The Valuation Office Survey of 1910

The valuation of land in 1910 was initiated by the Finance (1909-1910) Act (10 Edw. VII, c.8 section 26(1)) which provided for the levy and collection of a duty on the increment value of all land in the United Kingdom. The main object of the Act was to tax that part of the capital appreciation of real property which was attributable to the site itself, excluding any benefit arising from crops, buildings or improvements paid for by the owners. In this way, private owners were required to pay part of the increase in the site value of their land which had resulted from the expenditure of public money on communal developments such as roads or public services.

Increment value duty was based on the difference between the amount of two valuations. The first was the site value as at 30 April 1909, as determined by the Valuation Survey, which constituted the 'datum line' for these purposes: a second site valuation was to be taken on the occasion of any subsequent sale or grant of a lease, transfer of interest in a piece of land, or the subsequent death of a land owner, in order to determine any potential payment of increment value duty. This second assessment formed part of the on-going role of the Valuation Office, until this duty was repealed by the 1920 Finance Act (10 and 11 Geo. V, c.18). Although this legislation was only in place for around ten years, it has left behind a comprehensive record of land in every county enabling an understanding of the ownership, occupation, extent and value of land. The data collected during the survey for the county of Worcestershire, which has been retained, is contained in four different sets:

- The Valuation Summary books (sometimes referred to as the Lloyd George Domesday books): these are held at the Hive in Worcester (WAAS: BA8585/1 series);
- Forms 37 – Land: these contain the provisional valuations, and are also held at the Hive in Worcester (WAAS: 8585/2-64 series);

---

<sup>1</sup> See Brian Short, *Land and Society in Edwardian Britain* (Cambridge: Cambridge University Press, 1997), pp 131-132.

- Two series of annotated Ordnance Survey maps: the Field Maps (used in the field during survey), some of which are now held at the Hive in Worcester; the Record Maps (originally kept in the Valuation Record office) now held at the National Archives at Kew (TNA: IR129 series);
- The Field Books which contain a complete record of each valuation: again, these are held at the National Archives at Kew (TNA: IR58 series).

With regard to the Valuation Summary books, the first nine columns were compiled from the Rate Book for the parish and all of the books contain this information. Subsequent columns (10-40) were supposed to be completed by the staff of the District Valuation Offices after the initial valuation was complete: however, this was not carried out in a consistent fashion, and indeed, anyone interested in the mechanics and outcome of an individual valuation would be better served by the details contained in the Field Books.

This series of booklets provides a transcription of the first nine columns in that these record the ownership, occupation, extent, and basic valuation of each assessment. After a brief introduction to the parish, an analysis of the data will be presented examining the names of the major landowners. The transcribed data is to be found in Appendix 1, with indexes of owners, occupiers and places in Appendices 2, 3 and 4. Appendix 5 directs the reader to the appropriate references for the associated Forms 37, Record Maps and Field Books for the parish covered by the booklet. The standardisations adopted during the analysis of the data are listed in Appendix 6.

The civil parish of Worcester was extensive, and primarily an urban parish: it appears that the ecclesiastical parishes were used to divide the civil parish in some of the Valuation Summary books. The organisation of the parish of Worcester in the Valuation Office survey, and how this has been translated into a series of booklets for Worcester, is described in Appendix 7.

## **2. Worcester: South Hallow**

This booklet presents the data which appears under the heading of “South Hallow” within the civil parish of Worcester: it has been taken from one of the summary books for the Income Tax Parish of Worcester A.<sup>2</sup>

Of the 182 assessments with owners recorded in the Valuation Summary, the Rev. W. E. Rowlands and Mr. J. Stokes owned nine assessments each, whilst Harry Avery owned seven: the remainder were split between 97 owners with five or less assessments each. None of the assessments (with allocated assessment numbers) had an estimated extent recorded, and therefore no analysis in terms of acreage can be undertaken.

## Appendix 1. Transcribed data from the Valuation Summary for Worcester: South Hallow

NOTE:

1. This data has been transcribed as presented in the Valuation Summary without any standardisation of punctuation, abbreviation &c. However, all data presented as superscripts has been included as normal text in this transcription.

2. For those entries where there is no owner or occupier, these are excluded from the analysis and indexes in Appendices 2, 3 and 4, and are greyed out in the table below.

## Appendix 7. Organisation of the parish of Worcester in the Valuation Office survey of 1910

The civil parish of Worcester was split across four Income Tax Parishes known as Worcester A, Worcester B, Worcester C, and Worcester D, and there are 11 Valuation Summary books (WAAS: BA 8585/1/86-96). Within the books for Worcester A and Worcester B, the records are split by a series of headings, some of which are consistent with the ecclesiastical parishes within the civil parish at that time. However, for Worcester C, there are no such headings but two gaps in the records suggest three different districts. Using information from the relevant 1911 Census Summary books (TNA: RG78 series), it has been possible to determine the districts / ecclesiastical parishes to which this data belongs. Finally, it is not clear whether the records contained in the book for Worcester D relate to a single ecclesiastical parish or district, or to many: with only 142 records, these are presented as a single booklet named Worcester D.

Table 1 shows the various districts by Income Tax parish, Valuation Summary book number and related assessment numbers. Table 2 shows the booklet numbers for the parish of Worcester (20 in total) and their relationship to the Valuation Summary books.
