Introduction

The Valuation Office Survey of 1910 resulted in the creation of a snapshot of land across the county of Worcestershire, in common with other counties in England. The associated Valuation Summary books are to be found at the Hive in Worcester: these books are of a large format, measuring 43cm by 34cm, cloth-bound with leather corners and the name of the Income Tax Parish (ITP) written on the spine. An ITP may cover just a single civil parish in the county, whilst some ITPs covered two or more parishes: for example, the ITP of Church Lench only contains records for the civil parish of Church Lench, whilst that of Abbots Lench covers the civil parishes of Fladbury, Hill & Moor, Throckmorton and Wyre Piddle, as well as Abbots Lench itself. In some cases, two or more ITPs can be found in the same Valuation Summary book: for example, Conderton and Overbury. The basic unit of valuation was a piece of land in separate occupation, although the application of this principle was not always straightforward.[1] The number of valuation assessments in each ITP ranges across the county from 7 (Kenswick) to 7,171 (Kidderminster Borough).

This series of booklets provides a transcription of the Valuation Summary books for each civil parish in the county of Worcestershire, along with a brief analysis of the transcribed data.

1. The Valuation Office Survey of 1910

The valuation of land in 1910 was initiated by the Finance (1909-1910) Act (10 Edw. VII, c.8 section 26(1)) which provided for the levy and collection of a duty on the increment value of all land in the United Kingdom. The main object of the Act was to tax that part of the capital appreciation of real property which was attributable to the site itself, excluding any benefit arising from crops, buildings or improvements paid for by the owners. In this way, private owners were required to pay part of the increase in the site value of their land which had resulted from the expenditure of public money on communal developments such as roads or public services.

Increment value duty was based on the difference between the amount of two valuations. The first was the site value as at 30 April 1909, as determined by the Valuation Survey, which constituted the 'datum line' for these purposes: a second site valuation was to be taken on the occasion of any subsequent sale or grant of a lease, transfer of interest in a piece of land, or the subsequent death of a land owner, in order to determine any potential payment of increment value duty. This second assessment formed part of the on-going role of the Valuation Office, until this duty was repealed by the 1920 Finance Act (10 and 11 Geo. V, c.18). Although this legislation was only in place for around ten years, it has left behind a comprehensive record of land in every county enabling an understanding of the ownership, occupation, extent and value of land. The data collected during the survey for the county of Worcestershire, which has been retained, is contained in four different sets:

- The Valuation Summary books (sometimes referred to as the Lloyd George Domesday books): these are held at the Hive in Worcester (WAAS: BA8585/1 series);
- Forms 37 – Land: these contain the provisional valuations, and are also held at the Hive in Worcester (WAAS: 8585/2-64 series);
- Two series of annotated Ordnance Survey maps: the Field Maps (used in the field during survey), some of which are now held at the Hive in Worcester; the Record Maps (originally kept in the Valuation Record office) now held at the National Archives at Kew (TNA: IR129 series);

[1] See Brian Short, *Land and Society in Edwardian Britain* (Cambridge: Cambridge University Press, 1997), pp 131-132.

- The Field Books which contain a complete record of each valuation: again, these are held at the National Archives at Kew (TNA: IR58 series).

With regard to the Valuation Summary books, the first nine columns were compiled from the Rate Book for the parish and all of the books contain this information. Subsequent columns (10-40) were supposed to be completed by the staff of the District Valuation Offices after the initial valuation was complete: however, this was not carried out in a consistent fashion, and indeed, anyone interested in the mechanics and outcome of an individual valuation would be better served by the details contained in the Field Books.

This series of booklets provides a transcription of the first nine columns in that these record the ownership, occupation, extent, and basic valuation of each assessment. After a brief introduction to the parish, an analysis of the data will be presented examining the names of the major landowners and the extent of their property in the parish, along with an analysis of the main farms in the parish. Indexes of owners, occupiers and places appear in subsequent appendices and a final appendix will direct the reader to the appropriate references for the associated Forms 37, Record Maps and Field Books for the parish covered by the booklet.

This booklet presents the data for the civil parish of Norton & Lenchwick: it has been taken from the summary book for the Income Tax Parishes of Harvington and Norton & Lenchwick.[2]

2. The parish of Norton & Lenchwick in 1910

The combined parish comprises Norton located 3 miles north of Evesham, and Lenchwick, 1 mile to the south-west of Norton, with the hamlet of Chadbury located a further 1 mile to the south-west of Lenchwick, wherein Wood Norton is to be found. Sitting on a geology described as 'Blue Lias Formation and Charmouth Mudstone Formation (undifferentiated) - Mudstone', the parish extends to 2,644 acres. The resulting soils are a mixture of lime-rich loamy and clayey soils with impeded drainage, slightly-acid loamy and clayey soils with impeded drainage, and loamy soils with naturally high groundwater.[3]

When the census was carried out in 1911, the population of Norton & Lenchwick was 403 (197 males and 206 females): of the 109 properties recorded in the census, 103 were inhabited, two were uninhabited, and four were classed as a 'building not used as dwelling'.[4] From an agricultural viewpoint in the same year, the total cultivated area of the parish was 1,885 acres, of which 1,098¼ were arable, and 786¾ acres (42% of the total) were grassland: the total acreage included 244¾ acres of orchards and 258 acres of small fruit, variously included in the arable and pastoral totals. Of the 76 agricultural holdings in the parish, 75 were tenanted properties covering 1,856½ acres (98% of the total). The main arable crops were peas, wheat, barley, beans, cabbage, and oats, whilst the orchards were growing a range of top fruit. With less pasture land than arable, 130 cattle and 805 sheep were kept.[5]

[5] TNA: MAF68/2489, *Ministry of Agriculture, Fisheries and Food and predecessors: Statistics Divisions: Parish Summaries of Agricultural Returns. Worcestershire, 1911*. Main acreages of arable as follows: Peas, 112¾; Wheat, 104; Barley, 85¼; Beans, 81¾; Cabbage, 74¼; Oats 54½. Small fruit acreages: Strawberries, 59¾; Currants & Gooseberries, 59¾; Other kinds, 138½. Orchard acreages: Plums, 172; Apples, 34½; Cherries, 9; Pears, ¼; Other kinds, 29.

3. Land and property in 1910 in the parish of Norton & Lenchwick

In preparing the data for analysis, the following standardisations have been made:

- The owner name *Mid Railway Co* shown in Appendix 1 has been standardised to *Midland Railway Co.* in Appendix 2;
- Two variations of occupier names, *Heeks William* and *Heeks Wm*, are shown in Appendix 1: the listings in Appendix 2 shows *Heeks, William* for both variations;
- Two variations of occupier names, *Smith Geo* and *Smith George*, are shown in Appendix 1: the listings in Appendix 2 shows *Smith, George* for both variations;
- Two variations of occupier names, *Westbury Geo* and *Westbury George*, are shown in Appendix 1: the listings in Appendix 2 shows *Westbury, George* for both variations.

Of the 269 assessments with owners recorded in the Valuation Summary, 225 were owned by Duc d'Orleans who lived at Wood Norton, and was lord of the manor.[6] He also owned the majority of the parish in acreage terms (98%): see Table 2.

Table 1: Number of assessments by landowner

Name	No. of assessments
Duc d'Orleans	225
Rev. Wood	37
6 others with 1 or 2 assessments each	7
Not stated	1
TOTAL	270

Table 2 shows the acreage of land in the parish by major landowner, determined by summing the entries in the Valuation Summary.

Table 2: Acreage of land by landowner

Name	Acreage		
	a	r	p
Duc D'Orleans	2525	1	0
Rev. Wood	46	2	0
Midland Railway Co.	12	2	0
E. C. Rudge	1	2	0
TOTAL	2585	3	0

Those assessments with more than 50 acres of land are listed in Table 3.

[6] Kelly's Directory 1912, p. 202.

Table 3: Assessments in excess of 50 acres

Occupier	Situation	Acreage		
		a	r	p
Duc D'Orleans	Wood Norton (Deer Park)	428	3	0
Peter Wyllie	Norton	291	0	0
Geo. & Samuel Byrd	Norton	281	2	0
Duc D'Orleans	Wood Norton (Woods and Waste)	256	3	0
